Stages and Timelines

16
Apr

16 Apr 26, 05:15 PM IST → 12 Jun 26, 11:59 PM IST

Phase 1: Online Qualifier – MCQ

Participants will begin with an online AI-proctored MCQ assessment designed to evaluate their understanding of AI concepts and problem-solving ability.

Results

17

Phase 2: Build Sprint - Prototype Submission

Shortlisted teams will enter an intensive build phase to develop a working AI solution. Problem statements will be revealed along with the results of Round 1, and each team must choose one to work on.

Teams are expected to design and build a functional prototype that effectively addresses their selected problem.

Brief/Case

Submit

18

Phase 3: Finale

Top teams present their solutions to a panel of industry experts in a 10–15 minute session, followed by a live demo and Q&A with the jury. Teams will be evaluated on innovation, business impact, execution quality, and scalability.

All that you need to know about ET AI Hackathon 2.0

Note: The Phase 1 results will be announced on 22nd June before 3:00 PM

The ET AI Hackathon 2.0, in partnership with Unstop, is a nation-scale innovation challenge designed to discover and celebrate India's brightest emerging AI talent. Building on the success of its first edition, this flagship platform brings together the country's sharpest minds to solve real-world AI problem statements across business innovation, social impact, and open innovation domains.

Across a multi-phase journey, beginning with an online AI assessment, advancing into an intensive prototype build sprint, and culminating in a high-energy grand finale, participants ideate, innovate, and present transformative AI solutions.

ET AI Hackathon 2.0 is where ideas evolve into impactful products, and where the next generation of AI leaders takes shape.
